Iggy & The Stooges

**Iggy & The Stooges**- *Raw Power Live ItHOTf*

Release date: 2011 Apr 29

Label: MVD Entertainment Group

Ask a younger music fan if they are familiar with **Iggy & The Stooges** and chances are, half will answer “yes” and the other half will give you a blank stare. Luckily for both, the reformed Stooges (Iggy Pop, James Williamson, Scott Asheton, Steve Mackay and Mike Watt) went beyond awesome and re-recorded the entire *Raw Power* album live at the All Tomorrow's Parties festival on September 3, 2010. A highly explosive version of the title track starts things off on a high note. The sound has matured but the intensity remains the same. Several other tracks that I enjoy are “Your Pretty Face Is Going To Hell” (Pop shows no mercy on vocals while the guys serve up a steaming slab of garage-tinged punk), “Search and Destroy” (if you don't like this track, how can you call yourself a fan?) and “Death Trip” (literally a trip back into the early 70s). I see a lot to like for a fan of The Stooges. Check this out!
