[Iggy & the Stooges](#) have certainly had their share of bootleg live albums issued over the years, but the just-released *Raw Power Live: In the Hands of the Fans* (via the [MVD Entertainment Group](#)), sounds like it may be the best ever live Stooges disc from a sound quality perspective.

Recorded at the All Tomorrow's Parties Festival on Friday, September 3, 2010, all eight of *Raw Power's* kick ass tracks are performed, as well as a popular non-album track, "I Got A Right." The Stooges line-up featured on the recording consists of Iggy Pop, Scott Asheton, James Williamson, Steve Mackay, and Mike Watt.

*Raw Power Live: In the Hands of the Fans* is available as a [vinyl release](#), as well as an [iTunes download](#). And [by clicking here](#), you will find instructions on how to receive a free download of the classic tune "Search and Destroy," as well as five Iggy pix.
