Iggy & The Stooges
Raw Power Live
In The Hands of The Fans
(MVD)

The original punk Iggy Pop is alive and well and at the age of 63 he is still a force to be reckoned with. Recreating the classic album *Raw Power* live onstage some 38 years after it was released, the reformed

Stooges' (Iggy Pop, Scott Asheton, James Williamson, Steve Mackay, Mike Watt) performance at the All Tomorrow's Parties Festival on Friday, September 3, 2010 is high energy, balls to the wall, mayhem- just like it was back in '73.

From "Raw Power" to "Search and Destroy" and "Your Pretty Face is Going to Hell," The Stooges recreate the original songs flawlessly. It's enough to make Lester Bands rise from the grave and dance a jig.

Released on 180 Gram Vinyl, the album is a real collector's item and makes a good companion piece to your original *Raw Power* LP.

The LP will be officially release on Record Store Day, April 26, 2011, so get your yah yahs out and get ready to rock, bitches.
