**Johnny Winter**  
**Live at Rockpalast DVD**  
**Review by Gary Hill**

This release features a TV appearance by Johnny Winter. I've already reviewed the CD version of this set, so the best answer for the music evaluation comes by checking out that review. Since this was filmed for television, it's quite good. Of course, because the date of the performance is 1979, it's not up to current standards. It's a solid document of a killer performance, though. The audio and video are both quite adequate, making this a great set.
