Posted on [September 7, 2011](#) by [Brian](#)

“Up On The Sun”, the third record from [Meat Puppets](#), hits the streets next Tuesday, fully remastered, and pressed on 180 gram vinyl. Originally released in 1985, “Up On The Sun” has seen some renewed interest lately as a result of this year’s [Animal Collective curated ATP festival](#), which featured Meat Puppets playing the record in its entirety. Look for this one to hit the shelves September 13th for \$17. Check out the video below of the group playing the title track live at ATP this past May!
