## "Nazi Hunters" 2xDVD

This fine documentary series traces, through a combination of archival footage, modern interviews, and dramatic recreations, the processes that led to the ultimate capture of 9 former Nazi war criminals, many taking refuge for decades in South America. Through 8 episodes, devoted "Nazi hunters" tell of their heroic, dangerous, and off-the-radar attempts at tracking and, ultimately, bringing to justice some of the men responsible for the thousands of murders in concentration camps during World War II.

Described here in detail are the plots to capture infamous names like Klaus Barbie and Josef Mengele, as well as others less known, but equally as heinous. An engrossing series, well-suited for conspiracy theorists and historical fans. I enjoyed just about all of this one. ([Cineflix/MVD Visual](#))
