Evil United - "Evil United" CD

Texan metal maniacs Evil United summon the ghosts of classic thrash with their self-titled debut. "Dawn Of Armageddon" reminds of Iron Maiden or Megadeth, as vocalist Jason McMaster's fearsome falsetto is pure NWOBHM. All the while, the band lay out a rumbling assault that isn't so much innovative or brutal as it is disciplined and unflinchingly adept at classic metal affectations. I get some Slayer in there somewhere, too,

which isn't a bad thing, necessarily. "Speak" is another standout, bringing out some more atonal assaults ala Pantera or Treponem Pal. Well-defined and reverent, Evil United have the chops and the sound. [\(MVD Audio\)](#)
