February 2012 Reviews

IGGY AND THE STOOGES – Raw Power DVD: I'm not the biggest fan of music DVD's but this release has had me drooling from the mouth. Yes this DVD is that good! What makes this so cool is the fans involvement in this release too! I just wish more bands would undertake some thing like this for their fans. For your money you get 'Raw Power' played in it's entirety with a few more tracks added for good measure. What a pleasure it was to see Iggy and Co playing their hearts out. As a bonus there's an inclusive interview with Iggy, James and Scott. Not only that but there's contest submission videos and a tidy booklet put together by Mike Watt. There's been no expense spared here and like me you'll be impressed with this package. Totally faultless! 10/10
