the chance to film IGGY AND THE STOOGES live as well as interview the king of punk. Well this DVD will give you a fan view and make you feel as you were in the crowd. Well the video work is somewhere between pro action only shoot by real fans. Well the show is great and Iggy and the boys still got it. But anyway you get a great show featuring killer songs like... raw power, search and destroy, gimme danger, iwanna be your dog, no fun, funhouse, 1970, shake appeal, and more great songs. Well Iggy still have a lot of fire and pure punk chaos left in him. Just a great DVD for any punk or Iggy fan. Or anyone who loves danger in theirs punk. (EX+) PUNK/ROCK MVD
