Steve Howe - Remedy Live (MVD Entertainment, 2011)

Along with playing on Bill Shatner's new set of heavy metal songs (Hear William Shatner Singing Black Sabbath), Steve Howe has also been pulling together footage for a new live set.

Entitled *Remedy Live*, the new set is scheduled to be released on October 25.

Remedy Live was filmed live during the Yes guitarist's 2004 European Tour and includes acoustic tracks plus behind the scenes footage. According to his label's website "this fascinating documentary presents the magic web of chemistry created behind the scenes on Steve Howe's Remedy European Tour 2004, featuring exclusive footage of the band in their own studio and rehearsal environment, interviews with band members on the road and backstage footage."
