**live at the 9:30 club: in the hands of the fans dvd**  
**(MVD Visual)**

The *Live at the 9:30 Club* DVD shows us that they are still in touch with their own past. They perform their 1988 album *Bug* in its entirety and blast through it as powerfully as you'd want them to. The conceit of the DVD is that six fans were chosen to film the show. That fact mostly means the perspective is constantly shifting; it does little to help the band or the performance. But they don't need it. They're on fire. Extras on the DVD help make this a portrait of the band, as they are now and have been, especially a 20-minute on-stage interview with the band, conducted by **Henry Rollins**.
