DINOSAUR JR. - Live *In The Hands Of Fans* DVD

The idea of fans being involved with their favourite band's DVD is a really cool idea and brings both band and audience closer. On this outing six fans were invited to film Dinosaur Jr. performing 'Bug' it it's entirety at the 9:30 Club in Washington DC. Filmed in the summer of 2011 this DVD brings you not only a great live set but there's a really cool footage of the fans interviewing their heroes. If that wasn't enough there's an on stage interview with Henry Rollins and bonus live footage that you're going to love. Track listing includes 'Freak Scene', 'They Always Come', 'Let It Ride' and 'Pond Song'. I'm really impressed with the quality of this release as a lot of love and attention has been put into delivering the very best here. If you're a fan of Dinosaur JR. then this release is a must! 8.5/10
