

THE FALL (ERSATZ GB) CD Well just a classic band whose fan base cross both punk and alternative rock. Well the FALL sound is like SONIC YOUTH meeting one of those cool AMP REP bands who were probably inspired by them. Well this record have the same classic FALL sound only with something new added in, but the same great sickness is still there. (EX) CHERRY RED RECORDS) BW

X (THE UNHEARD MUSIC) DVD Now on HD DVD the classic movie from X called "the unheard music" that I once owned on a bootleg video about 25 years ago, but now you can get a legal copy. Well X will take you on a punk rock journey as you will all most live with the band doing interviews, at home, behind the scenes, live and more. Well "the unheard music" is like a cross between Spinal Tap (only true) meeting Behind The Music all rolled in one.

But this DVD shot in the 80's well give you the true early story on the band X as told by them, friends, fans, club and record people. A must for and music fan. Plus all the early classic songs are there. Plus almost 30 some years the band is still on the road and making good music. (EX+++) PUNK MVD (BW)
