Ike & Tina: On the Road: 1971-72

Release date: Nov. 20

Details: 1971-72, MVD Visual

The lowdown: Rock photographer Bob Gruen and his wife, Nadya, toured with Ike & Tina Turner, filming them on and off stage.

This documentary is a look inside the world of Ike and Tina. They appear happy and in synch together, far from the portrayal presented in the biopic “What’s Love Got to Do With It.” The film shows Tina and Ikettes practicing their dance routines and performing. It is a rare glimpse into the early years of this famous couple.

Technical aspects: Not available.
