BONG OF THE DEAD

Like

Be the first of your friends to like this.

If you haven't already heard about "Bong Of The Dead" then chances are you are a zombie! Or perhaps you don't have access to the internet because if you did you would know that this \$5000 epic zombie feature film created by Thomas Newman is getting some serious buzz! It has been Googled in exact words "Bong OF The dead" over 1.3 million times by fans across the globe! Producer/Writer/Director as well as a long string of other credits to his name, Thomas Newman has accomplished what some may have said was the impossible. He set out with only five thousand dollars, one camera and a whole lot of passion and drive to make an entire film for what Hollywood films would spend on coffee and cream on one of their sets.

Here is the thing, every time you hear about one of these no budget movies boasting about how they made an entire movie for nothing, the films usually reflect the budget. That however is not the case here! This epic indie film has all the makings of a “Cult Classic” to be and nothing less. The films style in which it was shot and directed definitely sets it apart from your average indie no budget film. This is not your sloppy hand held type of camera work I assure you.

So what’s the film about and where can you get a piece of the action? Here is a brief synopsis:

It’s a story about a couple of stoner buddies during a post-apocalyptic time when zombies rule the earth. The thing is Edwin (Mark Wynn) and Tommy (Jy Harris) love to grow and smoke pot since the world has basically ended anyways. One day Edwin discovers how to grow some killer weed by using zombie brains as fertilizer! The problem is however that there no zombies where they live so they have to set out on a road trip in order to find more zombies, collect their brains all for the sake of growing potent weed!

Well I wont lie to you he had me at “zombies” and “weed”! This film is definitely worth checking out if

you're a fan of zombies, weed and plenty of gory action! The make-up in the movie was created by award winning celebrity Make-Up artist and Co-Producer Mike Fields known for (X-Files, Masters of Horror, Narnia One and two, Fringe, Sucker punch). The quality in make up and gore will not leave fans disappointed that's for sure.

After 3 hard years in post production by himself enhancing over 365 shots by hand the film is finally getting its world premiere at the Rio Theater in Vancouver BC. Tickets went on sale for this must see film on April 13th and can be acquired from (www.bongofthedead.com) or right at the box office. Keep in mind however online tickets are \$10 and \$12 at the door. Also if you purchase online in advance then you get entered into a draw to win an original piece of movie memorabilia from the film! All other details are available on line at the bong of the dead website. Enjoy!
