RADIO – NEWS (/RADIO-BACKSTAGER)

ERSATZ GB (/RADIO/2011/12/ERSATZ-GB.ASPX)

Every time I decide I'm going to listen to The Fall I end up travelling down discursive labyrinths of albums, singles, live cuts, etc, spanning their 30 year career, and each time new gems reveal themselves in the muck. And so each new album from Mark E Smith and co just adds another hour of music for me sift through and explore, and they still inspire cult-ish love that I'd be hard pressed to justify to anyone who wasn't already a fan, and the story's been told so many times, that to re-hash to convince you isn't going to work. Also below we're going to post two new tracks, which probably isn't the best place to start if you've never heard the band before (but how could that be possible).

So if you're a fan, revel in the fact that MES is still alive and kicking (violently, probably) and hasn't felt better in his life.
