February 2012 Reviews

Elvis Found Alive DVD: I have to say this DVD is probably one of the best things I've watched in ages. This spoof DVD is that well done I can imagine some people actually believing that Elvis is still alive. Everything from Elvis' childhood right through to faking his death is talked about here and as I said it's all quite believable. What's more it's just not a short DVD either. There's over two hours of footage to get engrossed in and that's what I did. If you want something to watch that is different but well done then this piece of work by Joe Gilbert is clearly for you! 9/10
