Clown Hunt

Clown Hunt

Production Year: 2010

Release Date: 03/20/2012

Collection Number: 1041

So here's the deal folks. Clowns are an endangered species. That's right, we've hunted them to near extinction. A group of redneck hunters set up camp on one of their famed clown hunting trips and happen to discover the rarest of all species...An Albino Willie. Albino Willi ends up not just being rare, but a bit dangerous as he begins to hunt (and in some cases sodomize) the hunters.

This movie is played completely straight-faced. It's a real trip. There's a lot of humor here, some of it is with the intentional gags, the rest comes from the fact that it is played straight faced. I do not know how some of these actors were able to read the dialogue without cracking up the whole time.

When I received this DVD I couldn't believe what I was reading. When I popped it in I was expecting something extremely low budget, shot in someone's backyard, awful acting...What I got was the exact opposite. This is a hilarious movie, it's well acted, well written, my only real complaint is with the rap song that's heard occasionally throughout the movie.

The DVD includes a sideshow and chapter selections...It's pretty bare. I would have liked a featurette or two as I'm fairly interested in hearing about how this movie came to be. Plus...Barry Tubb...Any relation to the late great (and fellow Texas native) Ernest Tubb? Oh well, I'll stop myself before I begin to ramble.

Check out Clown Hunt...Or else!
