FASTWAY/Eat Dog Eat (MVD Audio) I love the 1st 2 Fastway releases then I kinda lost interest in the band and now they are back 21 years later with a new singer and a new release. The new singer sounds a bit like old singer David King and he belts out the lyrics with passion and emotion. The music is blues based rock and metal surely what you would expect from this band. Yeah this band may have that 80's sound to them, but I like it and heck this is better than any of that crappy modern rock that passes for rock n roll these days. The Fast Eddie guitar sound is right out in front of the mix and this was a pleasant surprise I must say.
