REDD FOXX/I Ain't Lied Yet: It says this was originally released in 1978 but don't you believe it. This was originally released before his stay on Warners in the 60s. A prime slice of Foxx on the chitlin circuit, once upon a time, this record had to be sold in a plain wrapper and sold from under the counter. Sheesh how times have changed. Hitting it rapid fire, Foxx was/is a laugh riot, even if we know these jokes backwards and forwards, we have to hear them with his timing and inflection. Who says you can't listen to a comedy record more than once? It's good to see this back in print.
