'The Story Of Rock N Roll Comics', the documentary on the controversial life of publisher Todd Loren that features interviews with the likes of Alice Cooper, is set for a UK DVD release on May 7th.

'The Story Of Rock N Roll Comics' examines the short, controversial life of publisher Todd Loren, whose scandalous series of unauthorized comic book biographies of rock stars charmed some (Gene Simmons, Jerry Garcia, Nick Mason of Pink Floyd) and enraged others (Axl Rose, Bon Jovi, Skid Row, New Kids on the Block) who eventually sued him.

In a landmark ruling however, the California Supreme Court decided that "Rock 'N' Roll Comics" was protected by the First Amendment and that Loren could continue publishing. But in 1992, Loren is found dead in his condo and his murder opens up speculation that he might have been the first victim of serial killer Andrew Cunanan, murderer of fashion... more » designer Gianni Versace.

Mixing quirky animation, eerie home video of Todd Loren, investigative footage and interviews/commentaries from artists including Mojo Nixon, Alice Cooper, Gary Groth, Ian Shirley, Cynthia Plaster Caster and more, The Story Of Rock N Roll Comics is an engaging expose about a man, whose love of music and comic books left a cultural impact and whose life, and mysterious death, is just as colorful as the comics he created.
