It's Unauthorized, but it's "The Story of Rock N' Roll Comics"

Who was publisher Todd Loren? Sure, he was murdered in '92, but before then he p*ssed off many a rock star with his unauthorized comic book biographies. Some bands even had lawsuits out against him; G n' R, Bon Jovi.

The biggest draw for me, watching this documentary, was Alice Cooper being in it. There were more people in it, some interesting home videos and more.

There really isn't much I can say about this DVD. If you like rock, you like comics, you knew who Todd Loren was... then you'll enjoy watching this. If you're clueless about all of the above then it's probably not a film for you!
