The Story of Rock 'N' Roll Comics

Wild Eye

Dir. Ilko Davidov

Todd Loren was an outgoing young comic book publisher who never fell short of fighting for his rights to produce unauthorized comics based on rock 'n' roll groups. The company motto? "Unauthorized and proud of it." The use of old video footage and interviews, which can be dated by bad quality (I guess I should say "old" quality) as well as the presence of thick computer screens and white computer towers behind the interviewees leaves me wondering why this wasn't released on DVD sooner. However, June marks the 20-year anniversary of Loren's brutal murder back in 1992 so with a nod to Loren, the story of Rock 'N' Roll/Revolutionary Comics is unveiled through interviews with both company employees as well as people who straight up didn't like Loren. If you fit into the comic/rock 'n' roll niche and remember a time when Loren was creating hell in the comic book world, it's an enjoyable piece of work. If not, don't watch it. They won't care.
