IGNITOR/Year Of The Metal Tiger (MVD Audio) This is the 2nd release from this band that features Jason McMaster (Watchtower) on it. This is some wicked ass pure heavy metal all the way. I would also say there is some power metal thrown in the mix as well. Jason's vocals are awesome here and he belts out the lyrics and the heavy metal screams to the T. Think in the vein of metal gods Judas Priest if they played power metal. The production on this is top notch and that guitar sound is crushing and will have your neck moving in seconds. These tunes are heavy, catchy and have tons and tons of fury and power behind them. Easily one of the best releases so far this year. A classic piece of metal music.
