

GG ALLIN & THE MURDER JUNKIES/Blood Shit & Fears (MVD VISUAL) Oh my god this is easily the most of the most disgusting and vile DVD's I have ever watched. I read about GG a lot in the days when Maximum Rock N Roll was published. I read about all the crazy stuff he did and all and now I got to see it with my own eyes. His band play dirty down rock n roll/punk rock and GG is absolutely insane. He cuts himself in the head and bleeds. He shoves a microphone up his ass and shits onstage and eats it!!! There is a total of 5 shows on this and the quality of the footage varies. All I know is GG maybe dead, but he in his time was one sick motherfucker and I am sure he was on some kind of drugs or what not when he was doing this live. Be warned this is not for the faint of heart. Info:
