

GG ALLIN & THE MURDER JUNKIES - Blood, Shit And Fears DVD: Fuck! This is one crazy assed DVD and one that will question whether GG Allin was insane or not! From the opening moments of this DVD the man is giving it big time. There's just no let up at all throughout this DVD which is recorded over three shows in the USA during 1991. Jeff Clayton (Antiseen) was right when he states these words "Lucky for you, some brave soul was able to catch this chaos on video so you can watch in the safety of your home". It was great to relive GG for a little while but this maybe a bit too much for the faint hearted. Whatever you think of GG he was the real deal and this DVD shows it. Hardcore and insane Rock N Roll at it's most extreme! 8/10
