Zombie Undead – DVD Review

(http://www.flockedmedia.com/wp-content/uploads/2012/08/512c+PRZ0UL_SL500_AA300_e1344422665399.jpg) Zombie movies really are a dime a dozen these days. I think I mentioned this in my last zombie movie review. I have watched some that suck. This one, however, doesn't suck. It wasn't awesome either, but it was pretty good. I watched it from beginning to end and even paused it for bathroom breaks.

A dirty bomb is the start of the zombie apocalypse in *Zombie Undead* (<http://mvd2b.com/s/ZombieUndead/MVD5390D>). As people lose beloved family members they must figure out how to get out of a hospital alive, through hordes of the undead.

This movie is somewhat slow-paced, and it doesn't have much for action scenes. You may find yourself on the edge of your seat once or twice though. Again, it doesn't suck.... so watch it.
