

## **LATEST BEATLES DOCUMENTARY DVD CELEBRATES *THEIR GOLDEN AGE***

A new **Beatles** documentary DVD marks the 50<sup>th</sup> anniversary of drummer **Ringo Starr** joining the Fab Four, signaling the beginning of the classic lineup the world came to know. *The Beatles: Their Golden Age* tells the story of the Beatles from their early days thru Starr replacing **Pete Best** behind the drums in August 1962, to their breakup in 1970. As Starr recalls in the one-hour film, "And then one day – it was August 1962 – **John Lennon** called me and he said, 'You're in! Shave your beard...but keep your sidies.' That's sideburns, you know."
