Be Forewarned: This is a Jerome Corsi article published at WND.

This could be a doosie or this could flop completely. There have been countless threads on this board dealing with this issue and it's by far one of the most polar topics ever encountered on ATS. People are fervent in their beliefs no matter what side they are on.

What we have is filmmaker Joel Gilbert's documentary titled "Dreams from My Real Father: A Story of Reds and Deception" set to be released in July.

This film continues with the theory that Frank Marshall Davis is in-fact B.O.'s real father. I find the theory completely interesting but I don't personally get behind it. The verdict of who our POTUS really is, is still out for me. We don't have all the facts yet. Hell to be honest...we don't have ANY of the facts yet.

"Who's your real Daddy?" is a question that remarkably continues to dog Barack Obama, even as he proceeds into his fourth year as president.

The excerpt below details how this all came about for Gilbert...

"The film provides the first cohesive understanding of Obama's deep-rooted life journey in socialism, from his childhood to his presidency," Gilbert told WND. Gilbert rejects the official story that the Kenyan-born Barack Obama was the president's father. Instead, he argues, Frank Marshall Davis, the radical poet and journalist who was a card-carrying member of the Communist Party USA, was the

real, biological and ideological father of Barack Obama. "I decided to investigate Frank Marshall Davis. His close physical resemblance to Obama was shocking, while Obama little resembled the Kenyan Obama," Gilbert said. "How could this be?"

Now for the part of the article that I found extremely interesting...

"I unearthed two film archives of Frank Marshall Davis, one from 1973, the other from 1987, as well as Davis' photo collection," he explained. "I then acquired 500 copies of the Honolulu Record, the communist-run newspaper where Davis wrote a weekly political column for eight years."

Gilbert's research turned shocking when he obtained seven indecent photos of Ann Dunham, Obama's mother, at Frank Marshall Davis' house, suggesting an intimate connection between Dunham and Davis

Well, it's a very interesting read no matter what side of the fence you are on. I'm probably going to get flamed for even posting this, but it's worth discussion.

I continue to keep an open mind regarding the birth certificate and who Obama really is because he ran on the platform of transparency and the man has been EVERYTHING BUT TRANSPARENT.

But then again, I don't have all the facts, so let us speculate.

Interesting to note...

IF FMD is in-fact the POTUS real father, that squashes the natural born citizen issue. However, it raises another issue regarding the POTUS presenting us with a known forgery.

What a rabbit hole this is!

You ever do any real digging on Frank Marshall Davis the communist, bi-sexual pedophile? I have to go back through my archives regarding his authorship of a tell all book that detailed the sexual liaisons that he and his wife had throughout the years.

Even more interesting is that Obama's grandfather wanted FMD to serve as Barack's mentor. It's all quite twisted when you read Obama's accounts in his book and compare those to the other facts that we know.

I can't rule anything out regarding a President we know so little about.

The Telegraph UK is reporting that Davis, a close friend of Obama's mother and his maternal grandfather, published an autobiographical, pornographic book, "Sex Rebel:Black," under the pseudonym "Bob Greene."

Marshall admitted to having written the book, which he said describes factual sexual encounters that he and his wife had with minors and other couples. "I could not then truthfully deny that this book, which came out in 1968 as a Greenleaf Classic, was mine," said Davis. The Telegraph states that, "In the introduction to Sex Rebel, Davis explains that although he has "changed names and identities...all incidents I have described have been taken from actual experiences."

Marshall's book describes, in lurid detail, his sexual encounters, including multiple group encounters with his wife and a 13 year old girl: "I'm not one to go in for Lolitas. Usually I'd rather not bed a babe under 20. But there are exceptions. I didn't want to disappoint the trusting child. At her still-impressionistic age, a rejection might be traumatic, could even cripple her sexually for life."

Davis described how the encounters with the child, who he called "Anne," would materialize: "Anne came up many times the next several weeks, her aunt thinking she was in good hands. Actually she was. She obtained a course in practical sex from experienced and considerate practitioners rather than from ignorant insensitive neophytes....I think we did her a favour, although the pleasure was mutual."

The whole BC issue has been manipulated to conceal his real father's identity not any confirmation of US Citizenship. In my opinion of course. Barack Sr. was simply a stooge in a cover up and was probably well paid to act as such. There are so many holes in the Barack Sr./Ann Dunham story its almost funny....

Good luck with this thread. I can smell "them" coming a mile away.. They get briefed on the days Obama headlines and how to respond..

I appreciate the reply and added information. I'll continue to do research into these new claims.

Hopefully others with info will find this thread and add to it. It was buried from the new topics page rather quickly today.
