I found this mildly interesting.

"Who's your real Daddy?" is a question that remarkably continues to dog Barack Obama, even as he proceeds into his fourth year as president.

With the release this July of Joel Gilbert's full-length documentary, "Dreams from My Real Father: A Story of Reds and Deception," the mystery deepens regarding who Obama really is.

It's possible the people in charge only allowed this book, (or even funded/wrote it) because even though it paints Obama as a socialist, it would mean that Obama was indeed born to TWO Americans and thus eligible to president. It's possible it is a direct counter to the 'birther' movement.
