"Dreams From My Real Father" by Joel Gilbert

Joel Gilbert recently released the truth about Obama and his past in a DVD documentary called, "Dreams From My Real Father". www.obamasrealfather.com

Yes, it is a play on Obama's book, "Dreams From My Father" (which was not written by Obama, by the way, but by his longtime Obama family friend, devout Marxist Bill Ayers.

I have no doubt that the film is right on the money and that Obama is lying about his past. We've known he has been lying all along -- we just couldn't find out what it was he was in fact lying about. Well, now we know. Even people who are Obama supporters have read his book and found the lies therein quite disturbing.

Which is precisely the reason I do not understand why Obama supporters do not embrace this film!

The film tells the truth about Obama's being born in Hawaii -- not in Kenya, as the Birthers have been suggesting for years now. The film proves that Obama's real father is the infamous and notorious Sex Rebel Black/Marxist/Pornographer Frank Marshall Davis. His real father was in fact born in the United States. So, no problem there.

Hello? *This film works to vindicate Obama of all the things he has been accused of ever since he and his family and his handlers started officially lying about who Obama really is and where he came from, in Obama's book, "Dreams From My Father".*

Of course, there is no word from Obama's White House on the facts found in Gilbert's film. Of course, it is Obama's intent to keep this news *quiet* as he tries for a second term as president. He got mucho mileage out of the "my father was a goat-herder from Kenya and I stand above politics" bullshit -- and there is no time to change his bullshit story now! If he starts telling everyone the truth, i.e., that his father is one of the biggest communist activists of the 20th Century and that his real goal as president is to take control of all wealth and distribute it -- among other plans he has for you and your goods -- his chances of getting back into the White House for another term is gonna be pretty slim (as if it isn't slim enough already given the arrogance, carelessness and stupidity of Obama's first term).

But anyway, I really don't care one way or another who Obama's real father is. But what does intrigue me is that I am not satisfied with Obama's lies and that he should be held accountable for his misleading dumb, white, middle class America and getting himself elected via lying like a rug.

It's a great film! The big moment I am waiting for is the moment when Obama finally admits the truth about himself and his past -- and the looks of the dumb, white, middle class America when they hear it straight from the horse's mouth. But then again, it likely won't matter at all. Dumb, white, middle class America simply does not care if they are lied to, tied up and robbed by a rabid, foaming-at-the-mouth Marxist. They love it!!!!!!!!!!!!!!

Enjoy the film! It's AWESOME!!!!!!!!!!!!!!
