Cliff Kincaid Endorses Movie Exposing Obama's 'Real Father'

Submitted by Brian Tashman on Mon, 07/16/2012 - 3:50pm

Earlier this month we [reported](#) (<http://www.rightwingwatch.org/content/craziest-right-wing-conference-yet>) on an upcoming conference that seemed exceptionally crazy even by right-wing standards, as it plans to focus on the purported connections between Communism and Sharia law and the claim that Barack Obama's real father is Frank Marshall Davis, the late civil rights activist and a friend of Obama's grandfather. Conference organizer Cliff Kincaid, who also heads Accuracy In Media and America's Survival, appeared on [Secure Freedom Radio](#) (<http://www.securefreedomradio.org/2012/07/13/communism-and-islam-historical-ties/>) last week with Fred Grandy, the former Republican congressman and actor ('Gopher' from The Love Boat) who was filling in for host Frank Gaffney, to promote the summit and push the charge that Davis is Obama's real father and still, even though he passed away in 1987, "has an influence over our President." But this new Birther saga undermines the classical Birther conspiracy that Gaffney now [pushes](#) (<http://www.rightwingwatch.org/content/frank-gaffney-goes-birther>) on Secure Freedom Radio, in which Obama's mother travels with Obama, Sr. to Kenya (for some reason) to give birth.

Grandy: Another one of your panelists at your event next week is actually going to be trying to make the case that perhaps—and I've heard this rumor before—that Frank Marshall Davis was more than just a surrogate father to Barack Obama, he may well have been this guy's real father and Barack Hussein Obama, Sr., to some degree, is merely a minor influence in this kid's life. How much credibility do you put into that?

Kincaid: I put a lot into it now that I've seen Joel Gilbert's film, it's called Dreams from My Real Father. It's an incredible film. He's going to show excerpts, he's going to talk about his research. He's expanded upon what we and Paul Kengor have done and I think it deserves a fair hearing. Now, whether or not he was a real father or not, the fact is Frank Marshall Davis has an influence over our President and that's the critical issue but if indeed if he was Obama's real father and the comparison's photos are striking then we've got even more of a mystery behind this guy in the Oval Office.
