Dreams of my Real Father: Frank Marshall Davis Jr.

Many Conservatives are going hoopla over the Obama Regime's latest distraction. [Brietbart.com](#) has an article showing that Obama's literary agent back in 1991 has as part of his bio that Obama was born in Kenya. This has created an uproar and the Birth Certificate issue is back. My opinion is that the Birth Certificate is fake. Where I part with many on the Right is what is being hidden. I believe that Obama is hiding who his real father was and his racial category. I am convinced that Obama's father was Communist activist, Frank Marshall Davis Jr.

Just by looking at the picture you can see the resemblance. There is no doubt Obama is the son of Frank Marshall Davis Jr.

A new documentary has come out called [Dreams of my Real Father](#). It explains how by being the son of Frank Marshall Davis Jr. Obama was able to connect top the world of Chicago Marxists. Below is a clip from the documentary.

This is what Conservatives should be pursuing. How Frank Marshall Davis connected Obama with the cabal of Marxist activists, who helped start his political career. This information about Frank Marshall Davis and his connections is really damning. It explains who Obama is and what political forces are behind him.

Obama has enough screw ups as President that should defeat him without any conspiracy theory. But if people want to find a sinister conspiracy, the Frank Marshall Davis connection has more damning evidence and explains much of Obama's mysterious background.

He's toast regardless. With a little effort, we'll get him out of office before he burns the place down. 😊

Evening, all.

Doesn't matter what he is hiding he is hiding and lying concerning what is on his Birth Certificate. As far as him being labeled marxist...well most liberals are all in favor of that.
