A new movie by director Joel Gilbert alleges that Barack Obama's real father was not the Kenya goat herder of the same name but the Honolulu Marxist Frank Marshall Davis. Via [The Blaze](#):

From the [website](#):

At age 18, Barack Obama admittedly arrived at Occidental College a committed revolutionary Marxist. What was the source of Obama's foundation in Marxism? Throughout his 2008 Presidential campaign and term in office, questions have been raised regarding Barack Obama's family background, economic philosophy, and fundamental political ideology. Dreams from My Real Father is the alternative Barack Obama "autobiography," offering a divergent theory of what may have shaped our 44th President's life and politics.

In Dreams from My Real Father, Barack Obama is portrayed by a voiceover actor who chronicles Barack Obama's life journey in socialism, from birth through his election to the Presidency. The film begins by presenting the case that Barack Obama's real father was Frank Marshall Davis, a Communist Party USA propagandist who likely shaped Obama's world view during his formative years. Barack Obama sold himself to America as the multi-cultural ideal, a man who stood above politics. Was the goat herding Kenyan father only a fairy tale to obscure a Marxist agenda, irreconcilable with American values?

This is how they intend to fight his not being a "natural born" citizen. Bunk as far as I am concerned, a simple dna test of his half brothers will tell if they have the same father.

No matter, he was adopted, claimed citizenship of Indonesia, traveled to Pakistan on a foreign passport, claimed to be a "foreign" student to qualify for loans, scholarships, or whatever.

I certainly don't see ANY facial resemblance to Davis... More lies upon lies..

1) if indeed the 'useful idiot' commie agitator is His father and the psycho-wacko whorebaby was His momma, then He IS a... "natural born citizen". Ironic. Not that you would know what those last two terms mean. However, I bet that you know what those earlier terms mean.
2) and how do you propose that we get a DNA test done? I suspect that the suspect's cooperation would be necessary. Besides, mitochondrial DNA testing is far easier to determine than nuclear DNA, but I don't imagine you would know anything about that either.
3) nobody knows what you're talking about- but since you can't see, it's probable that you can't see the keyboard either.

For the rest of us:
I've asked since 2008 how did a kid who went through High School in a daze get into prestigious name Universities?
Besides, how does a kid who grew up in Hawaii and Indonesia and never set foot on the mainland USA until He was 17, then attended Ivy League schools (well, one that we know about) make it into the rough and tumble corrupt world of Chicago politics?

The legendary story of Chicago politics is exemplified in the story of the man who approached an Apparatchik seeking to join the political-mob world,
Apparatchik: "Who sent you?"
Rookie: "Nobody"
Apparatchik: "Well, we don't want nobody that nobody sent?"

yet Barry moves right in- HOW?

I submit He had an introduction.
Frank Marshall Davis, who had more than just a simple passing mentoring interest.

I also submit that, counter to D'Souza, the real roots of His rage is when He found out that His white family lied to Him about His real ancestry- which he didn't discover until his teen years.
only later did He discover the advantages toward using the original deception to His advantage.

and there's more that makes sense- but you can't fear to think the unthinkable. If you do, then wait for CNN or Fox to spoonfeed you, they're happy to do it.

I suspect this website would not have issued this post as late as a year ago.

Sites like this further erode the intelligence of Americans.

#28 I guess you have nothing valid to add, which is not surprising. Anyone that disagrees with you is obviously a lazy person that lives with their mother. Patently false, but then again when you have nothing intelligent to add you resort to low blows. You can always tell when a person is losing a debate. They will either start calling you a communist, socialist, dirty, lazy, etc to deflect from their poor understanding of the situation.

By the way, I have been wanting to find just one conservative that knows the definition of socialism and communism. I've been searching for awhile now and have yet to find one that can. Secondly, can you explain it without being totally hypocritical? It reminds me of the woman that wrote him a letter exclaiming that she wanted government out of her healthcare and told him not to touch her medicare.

But how would we test for patriotism? Certainly we would need to have candidates with previous elected experience. We would need candidates amenable to having the records of their years of service publicly available.

Then our youth, so many of them seemingly unappreciative of their birth rights, and totally unconcerned as to the maintenance required to sustain those rights ... on & on.... but mostly, love for America.

And if you know about Malcolm X's teachings, with hate in his heart, Sorros and his supporters would find this the perfect person to help destroy America"
http://en.wikipedia.org/wiki/Malcolm_X

"From his adoption of the Nation of Islam in 1952 until he broke with it in 1964, Malcolm X promoted the Nation's teachings, including that black people are the original people of the world,[86] that white people are "devils",[87] that blacks are superior to whites, and that the demise of the white race is imminent.[88] While the civil rights movement fought against racial segregation, Malcolm X advocated the complete separation of African Americans from white people. He proposed the establishment of a separate country for black people[89] as an interim measure until African Americans could return to Africa.[90] Malcolm X also rejected the civil rights movement's strategy of nonviolence, and instead advocated that black people use any necessary means of self-defense to protect themselves."

If true, this would help explain the "HELP" Obama got along the way to get through college. . .

It really doesn't matter who he looks like genetically – and BTW, he looks FAR more like Malcolm X than Frank Marshall Davis. The long-settled legal principle is that the man the mother is married to at the time of birth or the name on the birth certificate is the father. Obama has long since acknowledged that Obama Sr. is his father and the other parties who might have some sort of standing to dispute that are long dead.

The reason this is true is because Davis was good friends with Obama's mom's dad and he impregnated his friend's daughter. Not good. So they 'used' Obama as the 'dad' instead because he too was black. If you read the mom's life's timeline, there is no way Obama is Obama's real dad. Davis and PRes Obama were very, very close.

Here you go, Nick! Look both socialism and communism up yourself. You don't even have to leave your mom's basement, although you may have to put down the bag of Cheetos first!

I think you're under the misconception that conservatives want NO GOVERNMENT. We want LIMITED GOVERNMENT. While government is a necessity, the accompanying bureaucracy is the problem. Bureaucrats are mostly faceless and nameless, unelected and unrepresentative of the citizens they work for. The industry regulations that they're in charge of enforcing are routinely ignored, or the lobbyist have corrupted the lawmakers to include favorable loopholes in the legislation that is eventually passed. More government is not better government, it's just a greater opportunity for politicians and bureaucrats to spend more money on their own interests, and to their own benefit. Bureaucrats and bureaucracies thrive in socialism and communism, that's why we advocate FREE MARKET capitalism. ANY form of government has to include socialistic aspects(including capitalism), e.g., military, infrastructure, etc.

While I feel your characterization of conservatives is unfair, you are entitled to your own opinion. But, remember that a government that gives you everything, can take it all away.

Nature abhors a vacuum and this is what happens when you have an informational vacuum about a U.S. President.

In fact, this is what happens when you elect a community organizer that the media refuses to investigate his life experiences. No one can explain his college years (academics or activities), his current family members know nothing about him (half-sisters and half-brothers) because they are scattered around the globe, leaving us with a functional mongrel with no personal references from his life.

Revisit Glenn Beck's video compilation of Obama's not-so-accurate reflections on his existence [here](#) and then consider the flub he made at around the 3 minute mark about the March in Selma, Alabama being the point of his conception - a full four years after his birth. Where was Davis, Malcom X, Stanley Ann, grandpa and grandma Dunham on the date of that march? Given the misinformation provided by this admin, I begin to doubt his very date of birth, regardless of paternity or where he was born. The current occupant of the oval office's bio appears to lean towards a complete fiction.

Obama is the spitting image of Malcolm X. Catch the child's picture of Malcolm. President X has the ring of reality to it.

With Davis as his father Obama could still have won in 08 — but if his father was really Malcolm X there is no way he would be in the White House today.

The left is floating this lie to be able to prevent all Obama has done from being repealed after he is removed from office, for not being eligible to be president. Imagine, the SCOTUS picks invalidated, all legislation INVALIDATED, regulations INVALIDATED, FIVE TRILLION IN DEBT INVALIDATED! BOY THE BANKS WOULDN'T WANT THAT TO HAPPEN, THIS WOULD DRIVE THE OWNERS OF THE FED CRAZY!

Obama is a fraud, not eligible to be president, all that happened under his administration a fraud.

Who knows who his real father is, and who cares. He isn't a natural born citizen, a citizen who doesn't have dual citizenship, who doesn't owe any loyalty to any country other than America.

there are also other ideas of who his real father is:

Now that I'm more familiar with his face than I ever wanted to be, I can see he looks a whole lot like Malcolm X. While fascinating, all this talk about his origins is a distraction guaranteed to make us look obsessed, vengeful and nuts. If there was hard proof one way or another, and the news of it spread far and wide, I don't think it would cost him a single voter out of those who haven't already left him. They're too stupid to care what they elected, and too stubborn to admit the mistake. Can we focus on what he's done/not done?

A campaign to inform voters is being planned. I would hope the influence of BO's mentor, CPUSA member, Frank Marshall Davis, will be part of it. But it might not...instead, they're concentrating on Jeremiah Wright, it seems...and I didn't like reading they'd be harrassing the Democratic Convention or that their message will be he's the "wrong choice for president in **these days and times.**"

They'll miss it entirely if they don't show how he's the wrong man for any time in US history — lacking character and wedded to ideas that have never worked. But they can pull off their "quandry" by making little Barry the victim of some really sick, anti-American people. Expose each one who profoundly formed him. (And, yes, FMD was one of the worst. An admitted pedophile who wrote of teaching a young girl he called "Anne" — in a threesome with his wife — the pleasures of sex.)

From the article:

Our plan is to do exactly what John McCain would not let us do: Show the world how Barack Obama's opinions of America and the world were formed," the proposal says. "And why the influence of that misguided mentor and our president's formative years among left-wing intellectuals has brought our country to its knees."

The plan is designed for maximum impact, far beyond a typical \$10 million television advertising campaign. It calls for full-page newspaper advertisements featuring a comment Mr. Wright made the Sunday after the attacks of Sept. 11, 2001. "America's chickens are coming home to roost," he said.

The plan is for the Democratic National Convention in Charlotte, N.C., to be "jolted." The advertising campaign would include television ads, outdoor advertisements and huge aerial banners flying over the convention site for four hours one afternoon.

The strategists grappled with the quandary of running against Mr. Obama that other Republicans have cited this year: "How to inflame their questions on his character and competency, while allowing themselves to still somewhat 'like' the man becomes the challenge."

Lamenting that voters "still aren't ready to hate this president," the document concludes that the campaign should "explain how forces out of Obama's control, that shaped the man, have made him completely the wrong choice as president in these days and times."

Malcolm X is Obama's (actually Shabaaz') real father. Big deal. But back then they thought Malcolm to be a messiah, and thought there'd be race riots if his child was known to be half white. This is why Obama has such a complex. He knows, but he can't tell. He believes he can do no wrong because of who his father was.

It's all stupid. The Frank Marshall thing is just to send the interest another direction. Obama just didn't turn out like everyone thought he should. No MalcolmX the second . . .
