# Film: President's Father Not Barack Obama

“Who’s your real Daddy?” is a question that remarkably continues to dog Barack Obama, even as he proceeds into his fourth year as president.

With the release this July of Joel Gilbert’s full-length documentary, “Dreams from My Real Father: A Story of Reds and Deception,” the mystery deepens regarding who Obama really is.

“The film provides the first cohesive understanding of Obama’s deep-rooted life journey in socialism, from his childhood to his presidency,” Gilbert told WND.

Gilbert rejects the official story that the Kenyan-born Barack Obama was the president’s father.

Instead, he argues, Frank Marshall Davis, the radical poet and journalist who was a card-carrying member of the Communist Party USA, was the real, biological and ideological father of Barack Obama.

The most logical "father" is Frank Marshall Davis.

In Davis' biography, he mentioned having a "threesome" with Ann about the time of Barry's conception.

Barry Sr. Split while "uncle Frank" hung around.

Barry jr. looks more like Frank than Barry Sr.

No, stevor, there's nothing logical about Franklin Marshall Davis as Barry's birth father, though it would be consistent with Dr. Fukino's press release that Barry was a natural born American citizen. Davis was, to the country's everlasting shame, a U.S. citizen. His boasting of a "threesome" with Stanley Ann is not credible, and is unlikely to have resulted in conception, even if it occurred. Stanley Armour pimp to his daughter's whore? A bizarre family, to be sure, but surely not that bizarre. Stanley Ann has probably been mischaracterized as a 1960s skank. She was not Obama's birth mother. She wasn't even present in Hawai'i when Barry was born there. She married Lolo Soetoro, a fundamentalist Muslim. Muslim men have an almost totally exclusive preference for virgin brides.

Barry's birth father will be proved to be Stanley Armour Dunham.

Pamela Geller pointed out long ago that Barry looks nothing like his adoptive father, Barack Hussein Obama the alien black Luo tribesman. Comparison of Barry's Y-DNA with that of close male relatives of the black Luo tribesman shows to a reasonable degree of scientific certitude that it is biologically impossible for Barry to be the son of the Luo. Analysis of Barry's DNA will prove to a reasonable scientific certainty that it is biologically impossible for Barry to be the son of a Negro father and a Caucasian mother.

But Barry is really the spittin' image of his birth father, Stanley Armour Dunham, except for Barry's warm mahogany complexion. Stanley Armour was a pale item, one o' those honkeychalks, of the beleaguered global minority. Barry's color comes from his birth mother, an obliging native Hawai'ian wahine who indulged Stanley Armour's heart's desire for a son, possibly for some womb rent for her school expenses. Franklin Marshall Davis's facial

resemblance to Barry and Stanley Armour Dunham might be due to a distant common ancestor of Stanley Armour and Franklin Marshall. That would be an interesting genealogical study, and I suspect there might be a fascinating story of the Free State of Kansas back there during the underground railway to freedom and the Kansas-Missouri border wars. If so, it might be ironic that heroic idealism then might have spawned adherents to the inherently despotic communist movement, which would divide all people into slaves and tyrants. They didn't become communists because they were bad people, they were bad people because they became communists.

But right now I'm preoccupied with campaigning for official investigation of Barry The Great Pretender, who has perpetrated a colossal hoax by misrepresenting his adoptive parents as his birth parents and his citizenship as American.

Oh, I failed to mention that Barry relinquished his American citizenship, setting the seal on his Indonesian naturalization as an adult in 1981 to evade Selective Service registration (backdated registration filed in 2008 or thereabouts), qualify for college scholarship, and get an Indonesian passport for international travel without passport control stamps on his retained U.S. passport (very useful for a Comintern mole). Yes, foreign naturalization, voluntary and with the intent to relinquish U.S. citizenship, does just that. Barry can't be a natural born U.S. citizen if he is no longer a U.S. citizen at all, even though he was a natural born citizen at the time of his birth. That's why I have this nagging doubt that Barry is in fact POTUS.

And no, Chantal\_designer, I don't call him President until he verifies not only his natural born citizenship at birth, but his retention of citizenship thereafter. The first is easy. He has tried the latter, by conspiring with Indonesian President SBY to hide or destroy records of his Indonesian naturalization, and fraudulently filing a back-dated Selective Service registration, but exhaustive official investigation will disclose that he was in fact naturalized as a citizen of Indonesia, confirming and ratifying it as an adult in 1981. At that point, the absence of his Indonesian naturalization file becomes evidence of conspiracy to alter official records of Indonesia for extremely valuable consideration, which might interest the Indonesian Corruption Eradication Commission, which might induce the Indonesian House of Representatives to ask the U.S. House to investigate Barry's violations of both Indonesian and U.S. law. The request of another representative body might finally shame the corrupt U.S. representative body to investigate, instead of fending off the request with blatant lies, as it does with its own constituents and citizenry.

How crass, corrupt, craven and degenerate the RINOs have been to refuse even to subpoena Barry's original birth certificate, after the People of the United States gave them the power. House Oversight Chairman Issa feared that it might be viewed as "overreaching". Speaker Boehner said Barry's legitimacy – without even official inquiry – was "settled". Words that will live in infamy.

Chantal\_designer is too generous in calling Barry a Muslim. He has no faith.

It's an open question whether Islam is a religion, rather than a plundering movement of conquest masquerading as a religion.

But Barry The Great Pretender a.k.a. The Great Mole merely uses Islam and Christianity as talking points for arrogating to himself political power. He is a double-distilled cynic.

Barry is implementing the Comintern strategy of using Islam to destroy Western Civilization. But the communist powers have plans for Muslims. After Islam introduces truly dark ages to the West, the communist powers will exploit Islam's internal schisms and blood feuds to weaken and subvert the Islamic world, and eradicate Islam in a well-deserved pogrom that in terms of scale will make the shoah look like a garden party. Billions of human beings, some living, some dead, will be plowed under for fertilizer.

Alas, we will be beyond caring.

Impeachment was thoughtfully provided by the Framers, to deal with just such a tyrant as Obama.

Unfortunately, the mental and moral runt RINOs won't use it.

They have probably cost us our Republic.

akaObama looks NOTHING like Frank Marshall Davis or BHO, Sr.

He IS the carbon copy of Malcom X, however.

Since there is no “thumbs up” or “like” button, here’s a big one for you, Chantal\_designer!  
Makes my stomach turn every time I see his “name” prefaced with the word president.

It’s not conclusive, but check out family snaps of Stanley Armour Dunham and Barry as a kid piggy-backing him on the beach, both facing the camera.
