Christian hard rock legends Stryper will be unleashing Live In Indonesia At Java Rockin' Land on DVD on Oct. 30. The 2010 concert film features the group delivering their irresistible mix of enormous choruses and biting guitars, to a crowd lapping up every single note.

"This show was an unexpected, but welcomed, addition to our tour schedule," says Stryper vocalist/guitarist Michael Sweet of the Indonesian performance. "It was added last minute and we scrambled to make it happen, but I'm glad it worked out. It was an opportunity to go to a primarily Muslim country and share our faith. Java Rockin'Land was a highlight moment of our career and I'm thrilled that we were able to capture its on video. It's definitely one of the better live performances by the band in a long time, and the fact that it was captured on video makes it even more exciting. I think the fans are going to really enjoy it."

In this Noisecreep exclusive, we're proud to bring you a fantastic performance from the new DVD of Stryper's 1987 power ballad smash, "Honestly."
