## Cherry (2012/MVD Visual DVD)

Picture: D Sound: D  
Extras: D Main Program: C+

Brian Cherry is the sensitive good guy that never gets laid, but is set up by his best friend/pimp & gigolo, Sam, to go out with Jules. Jules teaches Brian how "to be a man" and have crazy sex, but when Sam also secretly falls for Jules, he has sex with her behind Brian's back. And when Brian gets dumped and finds out... he starts down a darker path when he realized he has been two timed by the girl and his 'best' friend. Things go from bad to worst when Brian wants them to feel his pain and anger.

This is the story of love, friendship, and betrayal... it never ends well when two friends are after the same girl. That the natural order of things is for man to forcibly take what he wants. That loose morals and irresponsibly causes pain and tragedy, with this work having not much new to say on the subject.

There are no extras.
