THE ARCHERS OF LOAF - What Did You Expect? (Live At Cat's Cradle) DVD: The Archers Of Loaf were a wicked Indie / Rock band coming out of North Carolina. I only possess two of four albums released by these guys and this DVD was a welcome release through the post. What you get for your money is a film featuring 20 live songs plus the band being interviewed. Track listing includes songs such as 'Audiowhore', 'Freezing Point', 'What Did You Expect?' and 'Nostalgia'. Honestly for fans of this band this is a great release as it comes with some decent extras which includes some more songs and at least four more interviews. Top quality too! 8/10
