Dove Worldview:

Here are two new adventures in "The Tails of Abbygail" series. As in each adventure the cute little terriers teach important lessons that your family can share with all members.

In episode six Abbygail ask for help from members of her family as she is busy taking care of Grandma. So Pookie Lu Little and Abba Little prepare for this trip and make sure that they have everything packed, their homework is done and help each other before they leave. Then they begin the adventure and along the way teach about bus safety, being a leader and also how to have a little fun.

In episode seven the travel continues to their destination. Pookie Lu and Abba make new friends, rescue a German Shepard that was being cruelly chained up and teach the import process of adopting a puppy. In the meantime Mimo is looking for his lost little brother Shorty Pants and Pirate Dog gets groomed.

There are many values for you and your family taught through the adventures of these charming dogs. We award these advenutres the Dove "Family-Approved" Seal for all ages.
