

kinda takes away from the Stray Cats a bit but she doesn't stay onstage too long!

Overall this was a great blast from the past & it's a shame the band can't put aside their differences & do one more tour for the fans!

TWISTED SISTER

"A Twisted Xmas Live in Las Vegas" - DVD

Track Listing:

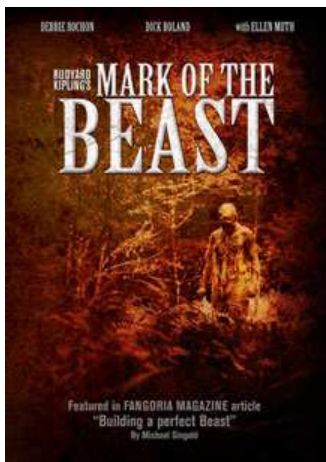

What I'll say about this dvd is that it's pretty cool how TS managed to convert their brand of shock rock into a Vegas styled holiday show..they do it quite well & the only thing I will note is that they do not play "S.M.F" nor does Dee cuss in this dvd..it's actually a clean show!

The band brings up a female singer towards the end of the show & she has the same exact hair as Dee which is funny although she's much prettier than he is!

It's a great treat to have TS classics like "The Price" tossed in between classic Xmas songs and the stage set up looks really cool..it's a rock n roll christmas hell onstage with dwarves, guitars, girls, santa & amps.

Dee made me laugh when he told a story of how the British press said he looked like Sara Jessica Parker with acid thrown on her...the description was accurate & in another part of the show Dee dispels the rumor that he's a Jew...the only Jew in Twisted Sister is Jay Jay French & Jay Jay spoke about it on this dvd with a very tongue in cheek rant that ended with him showing how he added a Minorca to his TS Xmas guitar.

What can I say, the title says it all, this is Twisted Sister's version of a Xmas show in Vegas & they pull it off really well from start to finish!

Mark Of The Beast

DVD

Track Listing:

This suspense horror movie originally written by Rudyard Kipling tells the story of a lost weekend amongst friends...one drunkard messes with a religious artifact & he's cursed by a zombie leper...the movie is actually good but the story itself is a tad weak in my opinion because the leper is not scary & the way they torture the leper to get him to undo the curse was just not usual in a horror movie.....(spoiler alert), the drunkard that was cursed eventually gets uncursed but winds up being shot by accident at the end of the movie...like I said, the plot was thin but the movie itself was a good watch & I'm impressed with the production for an independent flick!
