With the rash of [Bath Salts addicts](http://mvdb2b.com/s/BathSaltZombies/MVD5555D) (<http://mvdb2b.com/s/BathSaltZombies/MVD5555D>) and people eating other people's faces off, it only makes sense that someone would make a film about zombie that are created by bath salts (no, not the ones you soak in when you take a bath).

The one good thing I can say about this film is that it has a killer soundtrack, which includes The Meatmen and The Dwarves. Punk rock to the core.

The great music helps you get past the less than stellar acting.

Want to see our future? Watch this movie... lol.
