[Bath Salt Zombies: DVD Review](#)

📄 Posted by Admin in [Album Reviews](#) on 06 21st, 2013 | [no responses](#)

WHAT THE FUCK DID I JUST WATCH? I don't do many DVD reviews. The only ones I've really done have been comedy related

(stand up mostly). However, I get a lot of little punk rock presents in the mail that I'm not expecting, and this was one of them. With a soundtrack featuring **The Dwarves**, **The Meatmen**, **The Murder Junkies**, **Antiseen** and **The Gaggers**, it definitely has some cred.

MVD Visual distributed this NYC based horror-comedy film about some 20-something druggies that get involved in the wrong drug. They take bath salts in joint-form and don't have any recollection of the horrible acts they commit while high. It's definitely not meant to be taken seriously, and it reminded me a lot of the classic *Thanksgiving*, which is a horror-comedy about a serial killer turkey. That one was a *bit* more cheesy and poorly made, but the overall premise of something so ridiculous happening with an obvious low budget was apparent in both.

Direct by **Dustin Wayde Mills** (Puppet Monster Massacre, Zombie A-Hole, Ballad of Skinless Pete), produced by **Clint Weiler** with executive producer **Ed Seaman**, this film stars all unknowns: **Brandon Salkil**, **Josh Eal**, **Ethan Holey**, **Dave Parker** and **Jackie McKown**. I have to say, the production team did a great job with what they were likely provided with. The special effects are mediocre, but above anything I could do if given After Effects or whatever program they used, so who am I to say they blow?

I'm not suggesting you go see this FANTASTIC MASTERPIECE, but if you're bored and want a good laugh, it's not a bad flick. You can get it on [Amazon](#) for around \$10, so if you watch it 10 times in your life it's worth it, right? I mean shit, going to a movie here in LA costs \$16 minimum so for 10 measly bucks you can have 90 minutes of entertainment with a kick ass punk rock soundtrack. Oh... it also shows a lot of boobs.

Watch the trailer below if you need more convincing.
