Bath Salt Zombies: (2/19/2013) This tasteless, ultraviolent black indie comedy is a demented joy for fans of low-rent rotter movies. When a chemist in NYC invents the most potent drug-salts ever imagined, he uncovers a teensy side-effect: it turns the consumer into a maniacal flesh-eating zombie! Sounds like a good business plan to us. An over-the-top topical delight for those with a strong stomach.
