The Yardbirds Releasing Their "Making Tracks" DVD Next Week

The Yardbirds have announced official details about their upcoming DVD, *Making Tracks*, which features highlights from a variety of concerts by the band's current lineup that were filmed over the last couple years. The two-disc set, which will be released December 11, will offer 17 performances from the British blues-rock legends, including classic tunes such as "Heartful of Soul," "Train Kept Rollin'," "For Your Love" and "Dazed and Confused."

Disc one of *Making Tracks* will feature the live footage, while disc two will offer a tour documentary, interviews with the band members and two songs by founding drummer **Jim McCarty's** solo group.

"*Making Tracks* was great fun to make," says McCarty. "I think it really shows how young and old musicians can work together in a spirit of harmony and energy, giving credence to a great repertoire."
