Lulu Jarmen's ultra gory contagion horror **Bad Meat** will be released in the US and Canada by MVD with a street date of **February 19, 2013**.

Starring Dave Franco (21 Jump Street), Elisabeth Harnois (Mars Needs Moms) Jessica Parker-Kennedy (Decoys) and Mark Pellegrino (Mulholland Drive) *Bad Meat*, which premiered at London's Frightfest before screenings at Razor Reel in Belgium and Fancine in Spain, "Tells the story of a group of teenage delinquents who contract a deadly virus after being ordered to a remote camp for rehabilitation. Gristle and gore are on the menu-as are the kids in this Brat Camp slaughterhouse massacre."

Compared to Eli Roth's *Cabin Fever* and Michal J Bassett's *Wilderness*, *Bad Mat* trades in all manner of bodily fluids, puking perverts, a graphic dog dissection, amateur stomach-pumping, chewed body-parts and ripped-off genitals.
