

Ron Asheton: Tribute Concert With Iggy & The Stooges And Friends: (6/18/2013)* If you don't recognize the name "Ron Asheton", we'll forgive you this one time. Ron, who died New Year's Day 2009, was guitarist and songwriter for proto-punk masters The Stooges since their inception in 1967. In 2012 he was designated #60 in Rolling Stone's list of 100 Greatest Guitarists of All Time. Yet despite being a godfather of the often self-absorbed punk movement, he was also a philanthropist who created an animal welfare foundation and helped launch the careers of scores of struggling musicians. All profits from this doc-concert, featuring Deniz Tek on guitar and the incomparable Henry Rollins, go to Ron's charities. - John W.McDonald
