

## **Photon Band release new album *Pure Photonic Matter (Volume 1)*, playing Johnny Brenda's on July 6**

The **Photon Band**, fronted and founded by Art DiFuria, was formed in 1994. DiFuria perfected the art of the Photon Band on their now classic ***All Young In The Soul*** that was released on Darla Records in 1998. Sounding like a mashup of The Who, Sonic Youth and Guided By Voices, the band went on to release several more records including 2008's *Back Down To Earth*. DiFuria, who has his PhD in Art History, left Philly in 2010 to take a teaching position at Savannah School of Art and Design. However, he has kept the Photon rocking over the years. Limited to 500 copies on vinyl, The Photo Band has released a new album, *Pure Photonic Matter (Volume 1)*, on **Nod and Smile Records**. You can purchase the record [here](#). Along with bassist Jeff Tanner and drummer Pat Berkery (drummer for the stars), Photon Band will be at **Johnny Brenda's** with Brother JT on Saturday, July 6th. Below, listen to a couple of Photon Band jams from the past.
