- 12 page booklet with lyrics, artwork and liner notes

Printable version

Like a middle finger shoved in your face with a punch to the gut for good measure! INFECTIOUS GARAGE DISEASE deliver some of the best thrash punk from the late 1980's. Before punk became a mall commodity, IGD spread their disease on stages and party floors wherever they could, leaving a legacy of fast, in-your-face and politically incorrect songs not for the easily offended or weak of heart!
