They say you need to be patient in the movie business, and that proves to be quite true as news has finally come of the release of Stephen Manuel's multi-award-winning *Iron Doors* on DVD and VOD today, March 5th.

We first heard of the film back in 2010 during the American Film Market and actually gave it a pretty decent three-knife review ([click here](#) for more info). Check out the film's synopsis, trailer, and cover art below.

#### Synopsis:

Fans of tense, claustrophobic, single-location thrillers like *Cube*, *Saw*, and *Buried* are in for a real treat this month when Stephen Manuel's *Iron Doors* is released on DVD and VOD in North America by Jinga Films. Its numerous awards include:

- Best Actor - Fantasporto
- Best 3D Film - 3D Film Festival, Los Angeles
- Best Cinematography - European Independent Film Festival
- Best Film - Haapsalu Film Festival

Locked in a vault, a young investment banker faces a slow death from starvation. Who kidnapped him and why? How can he escape the concrete walls and massive iron door that confine him? His journey of self-discovery has only just began, and his fight for survival will teach him values he previously thought impossible.
