

**New York Dolls**  
*All Dolled Up: Interview*

This peculiar little 11-inch picture disc features interviews with the Dolls during their prime, plus a DVD of the excellent documentary, *All Dolled Up*. The doc was shot by famed rock 'n' roll photographer Bob Gruen and his wife Nadya and gets all up in the Dolls' business at the height of their debauchery. Fans of the band should be very pleased with this sweet little wax pack. (MVD)
